

2011-10-12

- (1) Chapter 6
 - (1.1) Sexuality and Society
- (2) Sex and the body
 - (2.1) Sex - gender
 - (2.1.1) Biological
 - (2.1.1.1) Genitals - reproduction
 - (2.1.1.2) Ovum - sperm
 - (2.1.1.3) Brain
 - (2.1.2) Secondary sexual traits
 - (2.1.2.1) Hips
 - (2.1.2.2) Breasts
 - (2.1.2.3) Muscle mass
 - (2.1.2.4) Body Hair
 - (2.1.2.5) Tonality of voice
- (3) Sexuality
 - (3.1) Intersexual (Hermaphrodites)
 - (3.1.1) Biologically both male and female
 - (3.2) Transsexual
 - (3.2.1) feels like one sex - is biological another
 - (3.3) Transgendered
 - (3.3.1) acts like/dresses like opposite sex (sort of a fetish)
- (4) Intersexuality in nature
 - (4.1) Organism with both/combination of primary sexual organs
 - (4.1.1) Frogs
 - (4.1.1.1) Frogs are vertebrates like us - similar endocrine systems - use the same hormones to control development
 - (4.1.1.2) Atrazine
 - (4.1.1.2.1) Makes leopard frogs intersexual in the wild and in the lab
 - (4.1.1.2.2) Hayes et. al. checked frogs and Atrazine levels at eight sites from Iowa to Utah.
 - (4.1.1.2.2.1) 92% of male frogs at sites contaminated with Atrazine had abnormal gonads.
 - (4.1.1.2.2.2) 33% of leopard frog tadpoles developed mixed gonads when exposed to 0.1 p.p.b. Atrazine which is well below typical environmental levels.
 - (4.1.1.2.2.3) The same happened with male African clawed frogs.
- (5) Poisoning Frogs Are People Next?
 - (5.1) By Lori Luechtefeld | Nov 1, 2002
 - (5.2) Findings by the University of California, Berkely link the pesticide

2011-10-12

atrazine to sexual mutations in frogs

- (5.3) Environmental Protection Agency (EPA) is considering a three- to four-fold increase for atrazine stan.....
- (6) Atrazine-Induced Hermaphroditism at 0.1 ppb in American Leopard Frogs (*Rana pipiens*) Laboratory and Field Evidence Tyrone Hayes, Kelly Haston, Mable Tsui, Anhthu Hoang, Cathryn Haeffele, and Aaron Vonk
- (7) Cultural Issues
 - (7.1) Sexual Practices - cultural traditions
 - (7.1.1) Approaches and positions
 - (7.1.2) Modesty
 - (7.1.3) Restrictions
 - (7.2) The Incest Taboo
 - (7.2.1) Forbidding sexual relations between relatives
 - (7.2.2) In every society
 - (7.2.3) Function --need to know these four for test
 - (7.2.3.1) Gene pool strong
 - (7.2.3.2) Limits sexual competition within families
 - (7.2.3.3) Limits confusing kinship
 - (7.2.3.4) Integrates larger society
 - (7.3) Don't get confused:
 - (7.3.1) --incest: just means "having sex with close relative"
 - (7.3.2) --taboo: adds the "bad/don't do this" part
- (8)
